

## Family LTD19

Meet Urban Arrow's most luxuriously equipped Family to date. This sophisticated pebble grey cargo bike is a gamechanger on all fronts. With its specialised enviolo cargo hub and H-Sync automatic shifting, Gates belt drive and the top-of-the-line Bosch Performance CX motor **this bike will turn your inner-city errands into blissfully joyous experiences.** Say bye-bye to traffic jams *and* carbon emission while you effortlessly zip through the city. What if you need to hit the brakes? Not to worry... A pair of downhill disc brakes provide you with all the stopping power you could ever wish for.

## Smart Urban Mobility

We want cities to remain great places in which to live. By combining the carrying capacity of your car with the agility of an e-bike, we are creating the ultimate vehicle to take all that's dear to you from A to B - and beyond. Clean, safe, stylish, fast.

Your favorite bike shop

Disclaimer: The rules to the LTD19 are simple. **Production is limited to five hundred units only.** Any given dealer can sell a maximum of three bikes.

# URBAN ARROW®

## Family LTD19

The Magura CMe 203mm disc brakes are normally used in downhill mountainbiking.

With four pistons on both the front- and rear caliper **you'll stop wherever and whenever you need to.** And, the CMe's have another cool trick up their sleeve; brake light sensors!

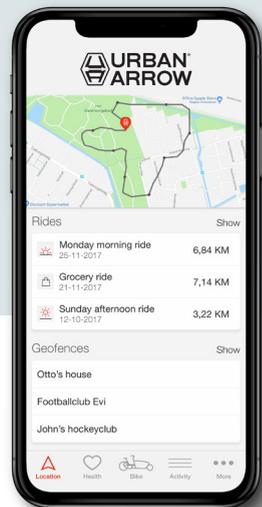

Rear light

The **Supernova** frontlight illuminates the path in front of you while the M99 rear light includes brake light functionality. Yeah, pretty lit!

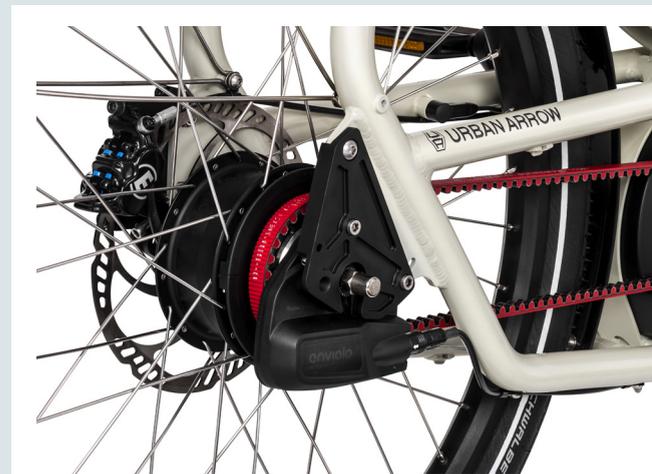

Brake light

Keeping in touch with your Family has never been this easy!

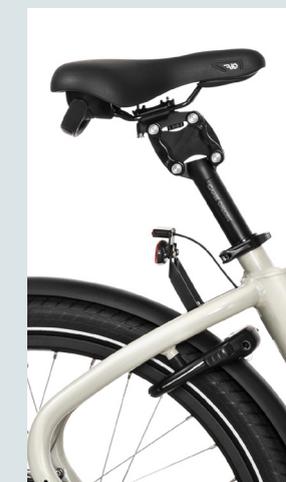

**AXA BIKE SECURITY**

The personalised app lets you gain insight in kilometers driven, calories burned and routes traveled. **The advanced GPS tracker on the LTD19 allows for geofencing**, which is easily set up in the app. It also notifies you when your bike exceeds a certain speed limit (like when thieves try to get away with it in the back of a van)

The **Enviolo cargo group set** delivers smooth continuous gearshifting. Combining it with the Bosch Performance CX motor, Gates belt drive and the **H-Sync automatic gear shifter** makes a ride on the LTD19 the most fluid experience ever on an Urban Arrow.

The Urban Arrow LTD19 is equipped with the top-of-the-line **Bosch Performance CX motor** and powered by a 500Wh battery.

The **Cane Creek Thudbuster** is the most effective and versatile suspension seatpost on the market. Its patented, parallel linkage technology delivers a clear advantage in comfort and control.
